

3. Jaye Moon (Hanmi Gallery) at Art Projects

Jaye Moon, Tree House, 2012

Newcomer [Hamni Gallery](#) is showing the Korean artist Jaye Moon at Art Projects, our curated showcase of the freshest contemporary art from across the world. Her playful site-specific installation Portable Housing will see her entangling Lego blocks within the existing architectural structure of the Business Design Centre, creating a space which encapsulates the essence of nomadic housing and an urban environment.
